REMARKS

Claims 33, 35-37, 42, 44, 51 and 55 are amended; and claims 31-39, 41, 42, 44, 46-48, 50-52 and 55-57 are pending in the application. The Examiner objects to several claims for utilization of the term "one or more", and requests that such term be replaced with the term "at least one". (Actually, there is a typo in the Office Action. The Examiner indicates that "one or more" should be replaced with "at one of" -- but Applicant understands the Examiner's intended meaning). Without admission as to the propriety of the Examiner's request, all instances of the term "one or more" have been replaced with the term "at least one". As the objection to the term "one or more" was the only objection pending against the claims of the application, Applicant respectfully requests that the Examiner's next Action be a Notice of Allowance formally allowing all of the pending claims.

Respectfully submitted,

Dated: 9/27/06By: David G. Latwesen, Ph.D.  
Reg. No. 38,533
